

AN EXTRA PAIR OF EYES, EARS AND HELPING HANDS

Here is a quick overview of the TruAlert capabilities that can help your loved ones live the way they want to:

Fall detection – this option instantly calls you if a loved one falls for any reason.

Smoke and carbon monoxide detection – alerts you and local authorities if there's something amiss in the air.

Flood detection – notification if the washer overflows or the bathroom backs up.

Need-to-talk option – connects members to a caring telephone friend.

Two-way, hands-free communications – Lets them answer the phone and talk from a distance, without picking up a headset.

Speed dialing – stores up to three numbers for instant, one-touch dialing.

Future Ready – Includes technology or compatibility to handle future advances, including vital statistics monitoring, home automation to control lights, appliances and entertainment, and video monitoring for visitor identification.

TRUALERT

COMPLETE, CONVENIENT
LIFESTYLE SUPPORT.

TRUVISTA[®]
SECURITY

IT'S EASY TO ENABLE A LIFESTYLE THAT MAKES EVERYONE HAPPY.

You care about your parents, your aunts and your uncles. It's what good families do. And it just seems to come naturally after they worked so hard to give you what you needed through the years.

Now it's your turn to give loved ones the tools they need to continue living the lifestyles they want. And it's easy, with the TruAlert lifestyle support system.

TruAlert is a complete, technological marvel of simplicity and practicality, designed to let your loved ones live how they want. With a level of safety and security you can live with too.

LIVE AND LET LIVE

Years of research and testing guided the design of TruAlert. So it meets the day-to-day, real-world needs of your parents and you. From the home station's easy-to-see buttons, to the waterproof transmitters that can be worn as wristbands or necklaces, TruAlert fits the way people live.

It gives you better ways to manage everyday living, like friendly medication voice reminders with push-button confirmation. And a Need-to-Talk option that offers an attentive, live voice to speak with.

Safeguards for the unexpected include the fall monitoring option that calls you automatically if a loved one falls down. And inactivity alerts that tell you if they miss a daily routine, such as getting out of bed or going for the mail.

INSTALLS IN MINUTES - WITHOUT TOOLS OR SPECIAL WIRING

Open the box, plug it in, connect the phone line, and you're done. Make some simple customizations – like entering medication alert times and routine activities, and selecting from the provided service level options – and TruAlert goes to work. The home station and waterproof portable transmitter, that can be worn as a wristband or pendant, are in the box. The waterproof fall monitor option is purchased separately.

GIVE THE GOOD LIFE TO THE ONES YOU LOVE

Families from coast to coast rely on TruAlert to help every generation live more fulfilling lifestyles, with fewer worries. You can too. All it takes is an TruAlert module, a few minutes and a little love. TruAlert will take care of the rest.
