

# How to Set Up Your eero Plus Benefits

Use the Truvista-branded eero app to activate the third-party services included with eero Plus.

## What's included with eero Plus?

**Malwarebytes**  
Identity & Device  
Protection

**1Password**  
Password  
Manager

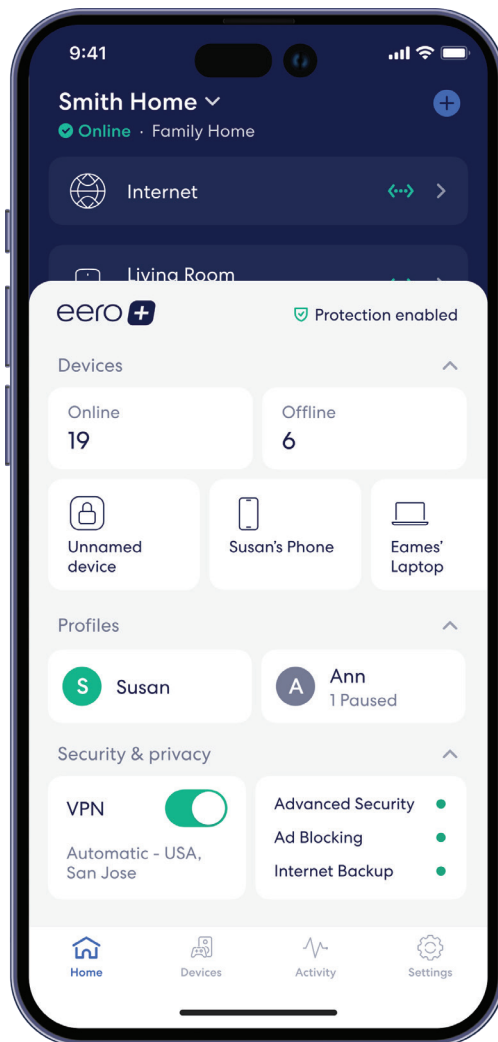

**Guardian**  
VPN

**Important:** These services are included with eero Plus, but each one requires separate account setup by the customer.

### 1 Open the Truvista eero app

When eero Plus is active, you will see 'Protection enabled' on the home screen.

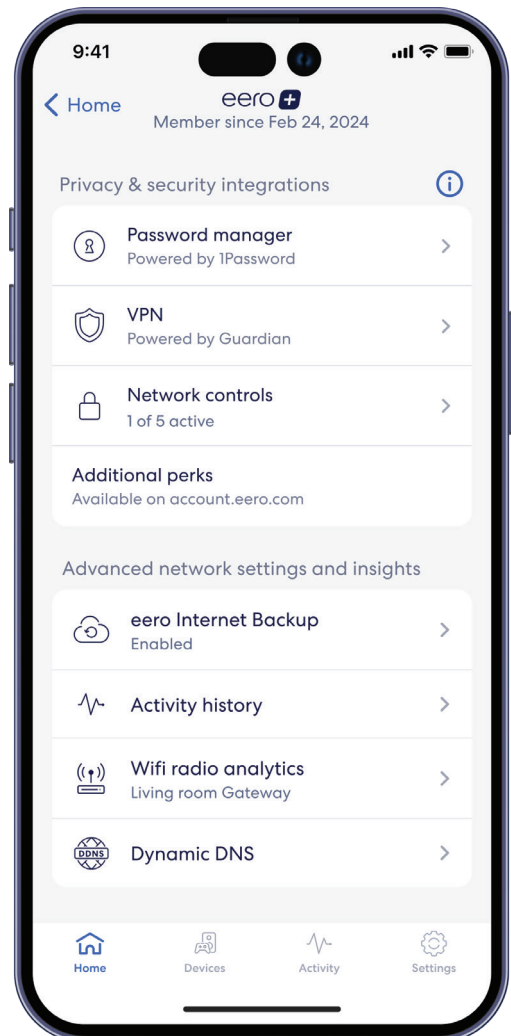

### 2 Tap Advanced Security

On the home screen, go to the 'Security & privacy' section and select 'Advanced Security.'

### 3 Set up each included service

In 'Privacy & security integrations,' tap each section to create your account and complete setup for the included services.
